On October 2, 2023, FOXO Technologies Inc. (the “Company”) obtained a \$42,500 loan from Andrew J. Poole, a director of the Company (the “Loan”), to be used to pay for the legal fees of Mitchell Silberberg & Knupp LLP through October 2023. The Company issued to Mr. Poole a demand promissory note for \$42,500 evidencing the Loan (the “Note”). The Loan accrues interest in arrears at a rate of 13.25% per annum. The principal sum of the Note is due on demand, and in the absence of any demand, one year from the issuance date. The Note may be prepaid, in whole or in part, without penalty at any time.

The foregoing summary of the Note does not purport to be complete and is qualified in its entirety by reference to the full text of the Note, which is attached hereto as Exhibit 4.1, and is incorporated herein by reference.

Item 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

To the extent required by this Item 2.03, the information set forth in Item 1.01 above is incorporated herein by reference.

Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.*Grant of Equity Awards*

As previously disclosed within a Current Report on Form 8-K filed with the Securities and Exchange Commission (the “SEC”) on September 19, 2023 (the “Prior 8-K”), the board of directors (the “Board”) of the Company appointed (i) Mark White to serve as Interim Chief Executive Officer of the Company and as a member of the Board pursuant to the terms of an employment agreement, dated as of September 19, 2023, by and between the Company and Mr. White, and (ii) Martin Ward to serve as Interim Chief Financial Officer of the Company pursuant to the terms of an employment agreement, dated as of September 19, 2023, by and between the Company and Mr. Ward.

On October 3, 2023, the Company granted Messrs. White and Ward each 2,500,000 shares of the Company’s Class A common stock, par value \$0.0001 per share (“Class A Common Stock”), pursuant to the Company’s 2022 Equity Incentive Plan, as amended, in consideration of services rendered and to be rendered to the Company. The shares awarded are not subject to any performance or vesting criteria, are deemed fully earned as of the grant date and are not subject to forfeiture, even if their employment with the Company terminates for any reason. The Compensation Committee of the Board approved these award grants on October 3, 2023.

Item 8.01 Other Events.

On September 29, 2023, the Company terminated the employment of four non-executive employees. These laid off employees are eligible for unemployment benefits subject to local regulations.

As of the date of this report, the Company has six non-executive employees, one consultant, two executive officers (one of whom is also a director), and two non-employee directors.

These layoffs allow the Company to conserve its cash resources as it continues to explore various strategic alternatives. As disclosed in the Prior 8-K, such strategic alternatives are focused on, among other things, AI technology-based applications and solutions and maximizing stockholder value, including, without limitation, a business combination involving the Company and its existing AI technology, a sale of all or part of the Company's assets and/or restructurings (e.g., further reductions in headcount and expenses).

The Company has not set a timetable for completion of the exploration process, and management has only begun to make decisions related to strategic alternatives, which remain subject to their ongoing review, and which include but are not limited to:

- an evaluation of whether KR8 AI Inc. ("KR8 AI"), a company in the development stage that uses artificial intelligence and machine learning to develop products and tools for content creators, and of which Messrs. White and Ward are substantial shareholders and executive officers, is a suitable acquisition candidate;
- the identification of several potential business opportunities centered around developing personalized healthcare tools that leverage the Company's patents in epigenetics and management's experience in delivering software solutions, such as the development of an AI platform that delivers health and well-being data-driven insights to individuals, healthcare professionals and third-party service providers so that they can make informed decisions about their health and well-being;
- the decision to pause sales of new life insurance products;
- reductions in headcount and expenses; and
- the identification of non-core business assets including dormant software which, if sold, could result in a reduction of the Company's outstanding liabilities.

There can be no assurance that the exploration process will result in any strategic alternative, or as to its outcome or timing.

As a result of the cash conserved through the layoffs and other cost-saving measures described herein as well as the cost-saving measures described in the Prior 8-K (which include issuances of shares of Class A Common Stock and rights to service providers of the Company in satisfaction of outstanding amounts payable by the Company to such service providers), the Company expects to be able to fund its operations through October 2023. In the event that the Company is unable to secure financing or enter into a strategic transaction by that time, it may be forced to further curtail or suspend its operations, sell the Company, or possibly even file for bankruptcy or liquidate assets and wind-up and dissolve the Company. The Company has no current plans to file for bankruptcy or to liquidate assets.
