NYSE American Requirements

The Company is subject to the NYSE American Company Guide because our Common Stock is currently listed on the NYSE American LLC (“NYSE American”). The issuance of shares of our Common Stock under the items of this Information Statement implicate certain of the NYSE American listing standards requiring prior stockholder approval in order to maintain our listing on the NYSE American.

Section 711

Section 711 of the NYSE American Company guide requires stockholder approval with respect to the establishment of (or material amendment to) a stock option or purchase plan or other equity compensation arrangement pursuant to which options or stock may be acquired by officers, directors, employees, or consultants, regardless of whether or not such authorization is required by law or by the company’s charter, except for:

- a. issuances to an individual, not previously an employee or director of the company, or following a bonafide period of non-employment, as an inducement material to entering into employment with the company provided that such issuances are approved by the company’s independent compensation committee or a majority of the company’s independent directors, and, promptly following an issuance of any employment inducement grant in reliance on this exception, the company discloses in a press release the material terms of the grant, including the recipient(s) of the grant and the number of shares involved; or
- b. tax-qualified, non-discriminatory employee benefit plans (e.g., plans that meet the requirements of Section 401(a) or 423 of the Internal Revenue Code) or parallel nonqualified plans, provided such plans are approved by the company’s independent compensation committee or a majority of the company’s independent directors; or plans that merely provide a convenient way to purchase shares in the open market or from the issuer at fair market value; or
- c. a plan or arrangement relating to an acquisition or merger; or
- d. warrants or rights issued generally to all security holders of the company or stock purchase plans available on equal terms to all security holders of the company (such as a typical dividend reinvestment plan).

The foregoing resolution for the transaction contemplated under Item 8 is required, among other reasons, because of Section 711 of the NYSE American Company Guide, pursuant to which stockholder approval is required with respect to the establishment of (or material amendment to) a stock option or purchase plan or other equity compensation arrangement pursuant to which options or stock may be acquired by officers, directors, employees, or consultants, regardless of whether or not such authorization is required by law or by the company’s charter.

Section 713

Section 713 of the NYSE American Company Guide requires stockholder approval prior to the issuance of securities in connection with a transaction other than a public offering involving (1) the sale, issuance, or potential issuance by the issuer of common stock (or securities convertible into common stock) at a price less than the greater of book or market value which together with sales by officers, directors or principal stockholders of the issuer equals 20% or more of presently outstanding common stock; (2) the sale, issuance, or potential issuance by the issuer of common stock (or securities convertible into common stock) equal to 20% or more of presently outstanding common stock for less than the greater of book or market value of the stock; or (3) the issuance of shares in connection with a transaction other than a public offering when the issuance or potential issuance will result in a change of control of the issuer.

The foregoing resolution for the transactions contemplated herein, among other reasons, because of Section 713 of the NYSE American Company Guide, pursuant to which stockholder approval is required prior to the sale, issuance, or potential issuance of common stock (or securities convertible into common stock) by the Company, equal to 20% or more of presently outstanding stock for less than the greater of book or market value of the stock (“**Minimum Price**”).

As a result of the foregoing Authorizations, on the date which is 20 calendar days after the date of mailing this Information Statement to its shareholders, the Company will be in compliance with Section 713 of the NYSE American Company Guide, as the Authorization will then constitute shareholder approval for the Company to issue shares of Common Stock with respect to the establishment of (or material amendment to) a stock option or purchase plan or other equity compensation arrangement pursuant to which options or stock may be acquired by officers, directors, employees, or consultants, regardless of whether or not such authorization is required by law or by the company’s charter and in an amount greater than 19.99% of the then issued and outstanding Common Stock of the Company, even if the price per share of Common Stock issued in connection with the transactions is less than the Minimum Price (as defined in Section 713 of the NYSE American Company Guide).

Dissenters’ Right of Appraisal

No dissenters’ or appraisal rights under the DGCL are afforded to the Company’s stockholders as a result of the approval of the Authorizations.

The consents we have received constitute the only stockholder approval required under the DGCL, NYSE American Company Guide Sections 711 and 713, our Certificate of Incorporation, and our Bylaws, to approve the (i) the Series A Preferred Issuances, (ii) the Convertible Notes Issuances, (iii) the Rights Issuances, (iv) the Series B Preferred Issuances, (v) the Series C Preferred Issuances, (vi) the Series B Preferred Issuances, (vii) the J.H. Darbie Issuances, (viii) the Barnes Issuance, and (ix) the Reverse Split. Our Board of Directors is not soliciting your consent or your proxy in connection with the actions and neither any consents nor any proxies are being requested from stockholders.

Vote Required

The vote, which was required to approve the above Authorizations, was the affirmative vote of the holders of a majority of the Company’s voting stock. Each share of Common Stock, Series B Preferred Stock, and Series C Preferred Stock entitles the holder thereof to one vote. The shares of Series D Preferred Stock (except in limited circumstances) have no voting rights. The holders of shares of Series A Preferred Stock, Series B Preferred Stock, Series C Preferred Stock, and the holders of Class A Common Stock vote together as one class on all matters submitted to a vote of stockholders of the Company. Each share of Series A Preferred Stock entitles the holder to cast the number of votes determined by dividing the Stated Value (\$1,000) by the higher of \$0.10 (subject to adjustment) or the volume-weighted average price (“**VWAP**”) of the trading day immediately prior to the record date.

The record date for determining those shareholders of the Company entitled to receive this Information Statement is the close of business on June 23, 2025 (the “**Record Date**”). As of the Record Date, the Company had an aggregate voting power of 91,600,658 votes attributable to all outstanding shares of voting stock outstanding, with 20,143,846 shares being votable Common Stock, and 71,456,812 shares being votable Preferred Stock. All outstanding shares are fully paid and nonassessable.

Vote Obtained

Section 228(a) of the DGCL and Section 2.9 of our bylaws provide that any action which may be taken at any annual or special meeting of stockholders may be taken without a meeting, without prior notice and without a vote, via written consent of the holders of outstanding stock having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted.

The approximate ownership percentage of the voting stock of the Company as of the Record Date of the consenting stockholders who voted to approve the ((i) the Series A Preferred Issuances, (ii) the Convertible Notes Issuances, (iii) the Rights Issuances, (iv) the Series B Preferred Issuances, (v) the Series C Preferred Issuances, (vi) the Series D Preferred Issuances, (vii) the J.H. Darbie Issuances, (viii) the Barnes Issuance, and (ix) the Reverse Split, totaled in the aggregate approximately 82.08%.

Notice Pursuant to Section 228 of the DGCL

Pursuant to Section 228 of the DGCL, no advance notice is required to be provided to the other shareholders, who have not consented in writing to such action, of the taking of the stated corporate action without a meeting of stockholders. No additional action will be undertaken pursuant to such written consents, and no dissenters' rights under the DGCL are afforded to the Company's stockholders as a result of the action to be taken.

Pursuant to Section 228 of the DGCL, we are required to provide prompt notice of the taking of corporate action by written consent to our stockholders who have not consented in writing to such action. This Information Statement serves as the notice required by Section 228 of the DGCL.

The Series C Preferred Stock shall be convertible into that number of shares of Common Stock determined by dividing the Stated Value of such share of Series C Preferred Stock (\$1,000), plus any accrued and unpaid dividends thereon (whether declared or not declared), by the higher of \$0.30 (such dollar amount being subject to adjustment for reverse and forward stock splits, stock dividends, stock combinations and other similar transactions of the Common Stock that occur after the Original Issue Date (as defined in the Series C COD)) or 90% of the average of the VWAP for the five trading days immediately prior to the conversion date (the “**Conversion Price**”).

In addition, a Capped Holder may allocate its pro-rata portion of the Issuable Maximum among Issuance Capped Securities held by it in its sole discretion. Such portion shall be adjusted upward ratably in the event a Capped Holder no longer owns any Issuance Capped Securities and the amount of Issuance Capped Securities issued to such Capped Holder was less than such Capped Holder’s pro-rata share of the Issuable Maximum.

Due to the restrictions contained in the Series C COD, in order to allow for full conversions of the Series C Preferred Stock issued pursuant to the Series C Offering, shareholder approval was necessary.

Most Favored Nation

Pursuant to the Series C Offering, after the closing date, if the Company proposes to issue any securities to any person, or the Company enters into any agreement with any person in connection with the subscription for securities in the Company by such person, which is on terms or provides rights which are more favorable to such person than those contained in the Series C Offering, the Company will promptly notify the purchaser or purchasers and agree to, and will cause all necessary third parties to agree to, such amendments to the Series C Offering as shall ensure that those same terms or rights are provided to the purchaser or purchasers. ITEM 8. – BARNES ISSUANCE

In compliance with Section 711 of the NYSE American Company Guide

Background

On July 24, 2024, we entered into an Independent Director Agreement with Bret Barnes pursuant to which Mr. Barnes is to be paid a cash fee of \$50,000 for previous services performed as a director (with an additional \$5,000 per month to be paid until satisfied), 40,000 shares of Class A Common Stock (which will be issued upon NYSE American approval) (the “**Barnes Shares**”), and \$5,000 per month commencing in July 2024 for his services as a director.

Section 711

As is more fully disclosed above, Section 711 of the NYSE American Company guide requires stockholder approval with respect to the establishment of (or material amendment to) a stock option or purchase plan or other equity compensation arrangement pursuant to which options or stock may be acquired by officers, directors, employees, or consultants, regardless of whether or not such authorization is required by law or by the company’s charter, except for certain limited circumstances (as disclosed above).

Shareholder Approval

On June 23, 2025, the Majority Shareholder approved the issuances of the Barnes Shares in compliance with Section 711 (the “**Barnes Issuance**”).

General; Shares Outstanding

As of the close of business on June 23, 2025, there were 20,143,846 shares of Common Stock issued and outstanding, 91,498,298 votes attributable to 19,414.64 shares of Series A Preferred Stock issued and outstanding, 3,245 votes attributable to 3,245 shares of Series B Preferred Stock issued and outstanding, and 573 votes attributable to 573.75 shares of Series C Preferred Stock issued and outstanding.

Effect on Current Stockholders; Dilution

Issuances of shares of Common Stock pursuant to Items 1-8 herein do not affect the rights of the holders of outstanding Common Stock, but the issuance of shares will have a dilutive effect on our existing stockholders, including the voting power and the economic rights of the existing stockholders. We cannot presently predict how many shares of Common Stock would be issuable pursuant to the issuances of shares of Common Stock pursuant to Items 1-8 herein.

ITEM 9. – REVERSE SPLIT

Overview

On June 16, 2025, our Board of Directors (the “**Board**”), through unanimous written consent, approved and adopted a proposal to amend our Third Amended and Restated Certificate of Incorporation, as amended (the “**Certificate of Incorporation**”), to effect a reverse stock split of our issued and outstanding Common Stock, any time before November 6, 2025, at a ratio of 1:1.99 (the “**Reverse Split**”) with the exact effective date to be determined at the sole discretion of the Board, without further approval or authorization of our stockholders before the filing of an amendment to the Certificate of Incorporation effecting the proposed Reverse Split.

Effecting the Reverse Split requires that Article IV of our Certificate of Incorporation be amended to include a reference to the Reverse Split. If implemented, the Reverse Split will be effective upon the filing of a Certificate of Amendment to the Certificate of Incorporation, in the form attached to this proxy statement as Appendix A, with the Secretary of State of Delaware, with such filing to occur, if at all, at the sole discretion of the Board and prior November 6, 2025.

If implemented, except for de minimis adjustments that may result from the treatment of fractional shares, as described below, the Reverse Split will not have any dilutive effect on our stockholders since each stockholder would hold the same percentage of our Common Stock outstanding immediately following the Reverse Split as such stockholder held immediately prior to the Reverse Split. The relative voting and other rights that accompany the shares would not be affected by the Reverse Split.

The text of Appendix A remains subject to modification to include such changes as may be required by the Secretary of State of the State of Delaware and as our Board deems necessary or advisable to implement the Reverse Split.

Purpose and Rationale for the Reverse Split

Our Board strongly believes that the Reverse Split is necessary to maintain our listing on NYSE American.

Our Class A Common Stock is traded on the NYSE American under the symbol “FOXO.” To continue our listing on the NYSE American, we must comply with NYSE American rules. NYSE American Company Guide Section 1003(f)(v) provides that the NYSE American may delist a security when it sells at a price per share of \$0.10. The price of our Common Stock has recently been trading consistently below \$0.30. Our Board has considered the potential harm to us and our stockholders should NYSE American delist our Common Stock from NYSE American. Delisting could adversely affect the liquidity of our Common Stock since alternatives, such as the OTC Markets, are generally considered to be less efficient markets. An investor would likely find it less convenient to sell, or to obtain accurate quotations in seeking to buy our Common Stock on an over-the-counter market. Many investors likely would not buy or sell our Common Stock due to difficulty in accessing over-the-counter markets, policies preventing them from trading in securities not listed on a national exchange or for other reasons. These policies reduce the number of potential investors in our Common Stock at its current market price. Our Board believes that a Reverse Split is a potentially effective means for us to increase the per share market price of our Common Stock and to avoid, or at least mitigate, the likely adverse consequences of our Common Stock being delisted from the NYSE American by producing the immediate effect of increasing the bid price of our Common Stock.

Management and the Board have considered the potential harm to us and our stockholders should NYSE American delist our Common Stock. The Board believes that the increased market price of our Common Stock expected as a result of implementing the Reverse Split could improve the marketability and liquidity of our Common Stock and other securities and will encourage interest and trading in our Common Stock. The Reverse Split, if effected, could allow a broader range of institutions to invest in our Class A Common Stock (namely, funds that are prohibited from buying stock whose price is below a certain threshold), potentially increasing the trading volume and liquidity of our Common Stock. The Reverse Split could help increase analyst and broker interest in our Common Stock, as their policies can discourage them from following or recommending companies with low stock prices. Because of the trading volatility often associated with low-priced stocks, many brokerage houses and institutional investors have internal policies and practices that either prohibit them from investing in low-priced stocks or tend to discourage individual brokers from recommending low-priced stocks to their customers. Some of those policies and practices may make the processing of trades in low-priced stocks economically unattractive to brokers. Additionally, because brokers’ commissions on low-priced stocks generally represent a higher percentage of the stock price than commissions on higher-priced stocks, a low average price per share of our Common Stock can result in individual stockholders paying transaction costs representing a higher percentage of their total share value than would be the case if the share price were higher.

Our Board does not intend for this transaction to be the first step in a series of plans or proposals to effect a “going private transaction” within the meaning of Rule 13e-3 of the Exchange Act.

In addition, because the number of authorized shares of our Common Stock will not be reduced, the Reverse Split will result in an effective increase in the authorized but unissued number of shares of our Common Stock. The effect of the relative increase in the amount of authorized and unissued shares of our Common Stock would allow us to issue additional shares of Common Stock in connection with future financings, employee and director benefit programs and other desirable corporate activities, without requiring our stockholders to approve an increase in the authorized number of shares of Common Stock each time such an action is contemplated, subject to applicable NYSE American rules.

We cannot assure you that the Reverse Split will have any of the desired effects described above. More specifically, we cannot assure you that after the Reverse Split the market price of our Common Stock will increase proportionately to reflect the ratio for the Reverse Split, that the market price of our Common Stock will not decrease to its pre-split level, that our market capitalization will be equal to the market capitalization before the Reverse Split, or that we will be able to maintain our listing on NYSE American.

Potential Disadvantages of the Reverse Split

We cannot assure you that the Reverse Split will accomplish any of the above objectives for any meaningful period of time. While we expect that the reduction in the number of outstanding shares of Common Stock will increase the market price of our shares, we cannot assure you that the Reverse Split will increase the market price of our Common Stock by a multiple equal to the number of pre-split shares, or result in any permanent increase in the market price of our Common Stock, which is dependent upon many factors, including our business and financial performance, general market conditions and prospects for future success. If the per share market price does not increase proportionately as a result of the Reverse Split, then the value of our Company as measured by our stock capitalization will be reduced, perhaps significantly.

The number of shares held by each individual holder of Common Stock would be reduced if the Reverse Split is implemented. This will increase the number of stockholders who hold less than a “round lot,” or 100 shares. Typically, the transaction costs to stockholders selling “odd lots” are higher on a per share basis. Consequently, the Reverse Split could increase the transaction costs to existing holders of Common Stock in the event they wish to sell all or a portion of their position.

Although our Board believes that the decrease in the number of shares of our Common Stock outstanding as a consequence of the Reverse Split and the anticipated increase in the market price of our Common Stock could encourage interest in our Common Stock and possibly promote greater liquidity for our stockholders, such liquidity could also be adversely affected by the reduced number of shares outstanding after the Reverse Split.

Except as set forth in this Proxy Statement, we have no specific plan, commitment, arrangement, understanding or agreement, either oral or written, regarding the issuance of Common Stock subsequent to this proposed increase in the number of authorized shares at this time, and we have not allocated any specific portion of the proposed increase in the authorized number of shares to any particular purpose. However, we have in the past conducted certain public and private offerings of our securities, and we will continue to require additional capital in the near future to fund our operations. As a result, it is foreseeable that we will seek to issue such additional shares of Common Stock in connection with any such capital raising activities, or any of the other activities described above. The Board does not intend to issue any Common Stock or securities convertible into Common Stock except on terms that the Board deems to be in the best interests of us and our stockholders.

Determination of the Ratio for the Reverse Split

In determining the split ratio, the Board considered numerous factors, including the historical and projected performance of our Common Stock and prevailing market conditions and general economic trends, and will place emphasis on the expected closing price of our Common Stock in the period following the effectiveness of the Reverse Split.

In addition, Section 1003(f)(vi) of the NYSE American Company Guide states that if a company has had one or more reverse stock splits over the prior two-year period with a cumulative ratio of 200 shares or more to one, NYSE American will commence immediate suspension and delisting procedures. Since November 6, 2023, the Company has implemented reverse stock splits in the accumulated ratio of 1:100 and a reverse split at 1:1.99 is the maximum allowable until November 6, 2023 without commencement of immediate suspension and delisting procedures.

Based on the number of shares of Common Stock issued and outstanding as of June 23, 2025, after completion of the Reverse Split, we will have approximately 10,071,923 shares of Common Stock outstanding.

Principal Effects of the Reverse Split

After the effective date of the proposed Reverse Split, each stockholder will own a reduced number of shares of Common Stock. Except for adjustments that may result from the treatment of fractional shares as described below, the proposed Reverse Split will affect all stockholders uniformly. The proportionate voting rights and other rights and preferences of the holders of our Common Stock will not be affected by the proposed Reverse Split (other than as a result of the rounding up of fractional shares). For example, a holder of 2% of the voting power of the outstanding shares of our Common Stock immediately prior to a Reverse Split would continue to hold 2% of the voting power of the outstanding shares of our Common Stock immediately after such Reverse Split. The number of stockholders of record also will not be affected by the proposed Reverse Split.

The following table contains the approximate number of issued and outstanding shares of Common Stock, and the estimated per share trading price following the Reverse Split, without giving effect to any adjustments for fractional shares of Common Stock or the issuance of any derivative securities, as of June 23, 2025.

After Each Reverse Split Ratio

	Current	After 1:1.99 Reverse Split
Class A Common Stock Authorized ⁽¹⁾	500,000,000	500,000,000
Class A Common Stock Outstanding	20,143,846	10,071,923
Number of Shares of Class A Common Stock Reserved for Issuance	23,582,561	11,791,280
Number of Shares of Class A Common Stock Authorized but Unissued and Unreserved	456,273,593	478,136,797
Estimated price per share, based on the closing price of our Class A Common Stock on June 23, 2025 ⁽³⁾	\$ 0.20	\$ 0.40

(1) The Reverse Split will not have any impact on the number of shares of Common Stock we are authorized to issue under our Certificate of Incorporation.

(3) The price per share indicated reflects solely the application of the Reverse Split ratio to the closing price of the Common Stock on June 23, 2025.

After the effective date of the Reverse Split, our Common Stock will have a new committee on uniform securities identification procedures (“CUSIP”) number, a number used to identify our Common Stock.

Our Common Stock and public warrants are currently registered under Section 12(b) of the Exchange Act, and we are subject to the periodic reporting and other requirements of the Exchange Act. The proposed Reverse Split will not affect the registration of our Common Stock or public warrants under the Exchange Act. Our Common Stock will continue to be reported on NYSE American under the symbol “FOXO” and the Public Warrants will be quoted on the OTC Markets under the symbol “FOXOW.”

Effect on Outstanding Derivative Securities

The Reverse Split will require that proportionate adjustments be made to the per share exercise price and the number of shares issuable upon the exercise of our warrants in accordance with the Reverse Split ratio.

The adjustments to these securities, as required by the Reverse Split and in accordance with the Reverse Split ratio, would result in approximately the same aggregate price being required to be paid under such securities upon exercise, and approximately the same value of shares of Common Stock being delivered upon such exercise, immediately following the Reverse Split as was the case immediately preceding the Reverse Split.

Effect on Stock Option Plans

We have equity incentive plans designed primarily to provide stock-based incentives to employees pursuant to which we have issued stock options to purchase shares of the Common Stock. In the event of a Reverse Split, the Board shall make appropriate adjustment to awards granted under the equity incentive plans. Accordingly, if the Board decides to implement the Reverse Split, as of the effective date the number of all outstanding option grants, the number of shares issuable and the exercise price, as applicable, relating to options under our equity incentive plans, will be proportionately adjusted using the Reverse Split ratio. The Board has also authorized us to effect any other changes necessary, desirable or appropriate to give effect to the Reverse Split, including any applicable technical, conforming changes.

The number of shares issuable under any individual outstanding stock option shall be rounded up as permitted under the specific terms of our 2022 and 2020 equity incentive plans. Commensurately, the exercise price under each stock option would be increased proportionately such that upon exercise, the aggregate exercise price payable by the optionee to us would remain the same. Furthermore, the aggregate number of shares currently available under the 2022 equity compensation plan for future stock option and other equity-based grants will be proportionally reduced to reflect the Reverse Split ratio.

Effective Date

If our Board concludes that it is in the best interests of the Company and our stockholders to effect the Reverse Split by November 6, 2025, the Certificate of Amendment will be filed with the Secretary of State of the State of Delaware. The actual timing of the filing of the Certificate of Amendment with the Secretary of State of the State of Delaware to effect the Reverse Split will be determined by our Board in its sole discretion but will be no later than November 6, 2025. In addition, if for any reason our Board deems it advisable to do so, the Reverse Split may be abandoned at any time prior to the filing of the Certificate of Amendment, without further action by our stockholders. Finally, the Board alone will have sole discretion to determine the final ratio of the Reverse Split within the parameters contained in this proposal. The Reverse Split will be effective as of the date of filing with the Secretary of State of the State of Delaware (the “**Effective Time**”).

Upon the filing of the Certificate of Amendment, without further action on our part or our stockholders, the outstanding shares of Common Stock held by stockholders of record as of the Effective Time would be converted into a lesser number of shares of Common Stock based on a Reverse Split ratio as determined by the Board in its sole discretion.

Treatment of Fractional Shares

Our Board does not currently intend to issue fractional shares in connection with the Reverse Split. Therefore, we do not expect to issue certificates representing fractional shares. In lieu of any fractional shares, we will issue to stockholders of record who would otherwise hold a fractional share because the number of shares of Common Stock they hold of record before the Reverse Split is not evenly divisible by the Reverse Split ratio that number of shares of Common Stock as rounded up to the nearest whole share.

On or after the Effective Time, we will mail a letter of transmittal to each stockholder. Each stockholder will be able to obtain a certificate evidencing his, her or its post-Reverse Split shares only by sending the exchange agent (who will be the Company's transfer agent) the stockholder's old stock certificate(s), together with the properly executed and completed letter of transmittal and such evidence of ownership of the shares as we may require. Stockholders will not receive certificates for post-Reverse Split shares unless and until their old certificates are surrendered. Stockholders should not forward their certificates to the exchange agent until they receive the letter of transmittal, and they should only send in their certificates with the letter of transmittal. The exchange agent will send each stockholder, if elected in the letter of transmittal, a new stock certificate after receipt of that stockholder's properly completed letter of transmittal and old stock certificate(s). A stockholder that surrenders his, her or its old stock certificate(s) but does not elect to receive a new stock certificate in the letter of transmittal will be deemed to have requested to hold that stockholder's shares electronically in book-entry form with our transfer agent.

Certain of our registered holders of Common Stock hold some or all of their shares electronically in book-entry form with our transfer agent. These stockholders do not have stock certificates evidencing their ownership of our Common Stock. They are, however, provided with a statement reflecting the number of shares registered in their accounts. If a stockholder holds registered shares in book-entry form with our transfer agent, the stockholder may return a properly executed and completed letter of transmittal.

Stockholders who hold shares in street name through a nominee (such as a bank or broker) will be treated in the same manner as stockholders whose shares are registered in their names, and nominees will be instructed to effect the Reverse Split for their beneficial holders. However, nominees may have different procedures and stockholders holding shares in street name should contact their nominees.

Stockholders will not have to pay any service charges in connection with the exchange of their certificates.

Record and Beneficial Stockholders

As of the Record Date, we had 69 holders of record of our Common Stock. We do not expect the Reverse Split and the rounding up of fractional shares to whole shares to result in a significant reduction in the number of record holders. We presently do not intend to seek any change in our status as a reporting company for federal securities law purposes, either before or after the Reverse Split.

If our Board elects to implement the Reverse Split, stockholders of record holding some or all of their shares of Common Stock electronically in book-entry form under the direct registration system for securities will receive a transaction statement at their address of record indicating the number of shares of Common Stock they hold after the Reverse Split. Non-registered stockholders holding Common Stock through a bank, broker or other nominee should note that such banks, brokers or other nominees may have different procedures for processing the Reverse Split than those that would be put in place by us for registered stockholders. If you hold your shares with such a bank, broker or other nominee and if you have questions in this regard, you are encouraged to contact your nominee.
